Allowable Subject Matter

1. Claims 16-36 are allowed.

Claims 16, 22, 23, 29, 30, and 36 are independent claims.

The following is an examiner's statement of reasons for allowance:

2. Applicant's arguments, see line 13 of page 13 to line 7 of page 15, filed 12/29/03, with respect to claims 16, 22, 23, 29, 30, and 36 have been fully considered and are persuasive. The previous rejection to claims 16-36 has been withdrawn.

As to claims 16, 22, 23, 29, 30, and 36, the closest prior art such as Ikenoue et al. (Park (US Patent No. 5,671,277) teaches data entered from the floppy disk including image data and additional data which are processed with the input from the control panel. Ikenoue, including an updated electronic text search, would not teach the amended limitations from independent claims: "a loading unit that receives a detachable storage medium having storing (i) a plurality of image data files and (ii) sheet processing information containing instructions for processing each recording sheet on which the images are printed, wherein the sheet processing information individually specifies respective settings for each of the image data files; and a controller that controls the printer so as to print on a recording sheet based on the image data file corresponding to that image stored in the detachable storage medium, and then to process the recording sheet on which the image has been printed in accordance with the sheet processing information stored with the corresponding image data file in the detachable storage medium loaded in the loading unit". The above distinct underlined features render it allowable.

Art Unit: 2624

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
